

We care about the healthy life of you and your family

We want to help promote healthy living for everyone; so, in recognizing the citric acid and vitamin C contents of *kabosu* fruit, we have developed our flavorful “KABOSU” from the highest-quality and safest natural ingredients. “KABOSU” may be added to the food and drink of your choice. It is our hope that your entire family will enjoy the flavorful “KABOSU”.

Kabosu citrus fruit from Oita Prefecture, Japan

Kabosu is a type of citrus fruit and one of Oita Prefecture's local specialties. *Kabosu* fruit used in our product is harvested in the largest *kabosu* farm in Japan, which has also received awards from Japan and the prefectural government. **We only use the fruit grown without any use of chemical fertilizer and juice is squeezed from the whole fruit.** *Kabosu* juice contains high levels of citric acid and vitamin C.

Using Natural Water from a Nationally Respected Water Source

We use natural water from Oike Spring in Mt. Kurotake in the Aso Kuju area, a Nationally Respected Water Source as designated by the Environmental Agency. This flavorful natural water, containing minerals such as calcium and potassium, brings out the refreshing aroma of “KABOSU”.

Production Facility under Strict Quality Control

We collaborate with a beverage manufacturer in the production of “KABOSU”. We have developed our own sets of quality standards, under which “KABOSU” is produced in order to deliver a high-quality and safe product to our customers.

Quality First Is Our Policy

“KABOSU” was co-developed with Oita Industrial Research Institute under the supervision of Oita Prefectural Agriculture, Forestry and Fisheries Division. Our policy is to offer a product that not only tastes good but is also good for your health. We only use high-quality ingredients in order to offer a high-quality product.
